Child Find Team

Dear Parent(s),

Thank you for your interest in the continuum of early intervention services for young children with special needs and their families. We strive to work with each family to design a personalized intervention program based on each child's strengths, needs, and learning style. The IFSP/IEP team recommends services and placement based on IFSP outcomes or IEP goals and objectives. The IFSP/IEP team members may include parents, teachers, therapists, administrators and representatives from the Department of Special Education, Office of Early Intervention Services.

If you would like more information about the continuum of services and the IFSP/IEP decision-making process please do not hesitate to call your child's teacher or the Office of Early Intervention Services at 410-313-7017.

We look forward to working with you and your child.

Sincerely,

Anne Hickey
Instructional Facilitator
